Published by United Art Co., Boston, Mass.

HARVARD BRIDGE is one of the main connecting links between Boston and Cambridge, Mass. Along the Charles River on the Cambridge side is the beautiful Memorial Drive where Massachusetts Institute of Technology, one of the finest schools of Engineering and Science in the country is located.

Dear Hugh, ← hz! ← a fellow course man
The other day Art Wolters took pictures of them lifting a 2748 Buick (with body enclosed) from the river with 3 wreckers and a huge crane. The car skidded on the bridge but went through the fence instead of into a ditch like I did. Yesterday, a BEAUTIFUL day - ~~clear~~ deep blue sky and a foot of newly fallen snow on top of over a foot of old snow, cold and invigorating. George and I goofed off (said "to hell with it") and escaped the institution to go to Wellesley where we spent the afternoon and half the evening with

me, a girl from Kentucky (Louisville) and George! a girl from Omaha, Nebraska - FUN!

The Canyon from Bradley Wales Lookout
Pennsylvania's Grand Canyon

14

**A FEW FACTS ABOUT PENNSYLVANIA'S
GRAND CANYON**

The Canyon is 50 miles long, extending from Ansonia, Pa. on U. S. Route 6 to Jersey Shore on the Susquehanna River. It is from 1 to 1 1/2 miles wide and from 1000 to 1400 feet deep. Pine Creek, famous trout stream traversing the length of the Canyon, was, in early days, the main water route of the Indians from the Susquehanna River to the Ohio River and the western part of the United States. Additionally the Canyon was then the home of the Panther, both black and red and the huge Elk. The Canyon was originally the boundary between the Indian Nations and the early white settlers. Pennsylvania's Grand Canyon is the Creator's Masterpiece in the Keystone State.

Hi Quig,

JOKAKE INN
Phoenix, Arizona

Surrounded by flowers, date palms, and giant cacti, JOKAKE INN is located on the sunny slope of Camelback Mountain, on the edge of the desert, 10 miles northeast of Phoenix, and 10° warmer. The SPANISH TOWERS, marking the main group of buildings, are backed by different kinds of verdure surrounding the INN.

I have just returned from this wonderful place in Arizona. Visited affie, Fred & Whitet at Wisconsin on the way home. Was amazed to see the true situation between affie & Fred out there. Sorry we won't be sailing together either at Friendship or on Alfred Yake this summer. Get Fred to really fix you up with lots of days off! Hope to come up for a visit in August. Write you old, big!

978—Typifying "Mormon" Pioneers Crossing the Plains en route to Salt Lake City

7A-H3597

DESERT BOOK COMPANY, SALT LAKE CITY, UTAH

The Hand-cart migration was a distinct movement in western pioneer travel. From 1856 to 1861 nearly 4000 people crossed the plains on foot. Men and women pushed or pulled their Hand-carts for 1000 miles west of the Missouri River, intent on finding a haven for religious freedom. Every company was under the direction of a captain or leader and was well organized. The Hand-cart companies brought to the State, artisans, traders, agriculturists, blacksmiths, and men learned in the professions. While the hardships were many the Hand-cart migration stands out as one of the greatest economic and social factors in the history of Utah.

BROOKLYN BRIDGE AND LOWER
MANHATTAN, NEW YORK CITY

Brooklyn Bridge spans the East River at the Lower end of Manhattan and connects New York with Brooklyn. In its day Brooklyn Bridge represented a world-famed engineering achievement. Construction began in 1870 and it was finally opened to traffic and pedestrians in 1883. The Span is suspended on four cables each 3578 feet long and each made up of 5296 wires. The length of the river span is 1595 feet and the total length of the Bridge is 6537 feet with a width of 85 feet. The background shows the lower New York skyline as seen from the Brooklyn side of the East River. Included in the buildings seen are, on the left, the City Bank, Farmers Trust, 60 Wall St. Tower, with the Bank of Manhattan behind it and the Woolworth Building at the extreme right.

How goes everything? Guess what
charming place I'm in now?? In a
huge group of mad, singing Hollanders.
This is only the second hostel we've been
in in the Netherlands but they are
wonderful! Maddy & I took a train from
Paris to Bruxelles (3 weeks in the former)
and set out by bicycle. We haven't come
very far but see so many nice things.
Bruges took two lovely days. Now we're
heading north and east for Utrecht and
Arnhem and to make a loop around the
Zuider Zee & back to Amsterdam — I
can't miss the treasures there. Write me care of

Dear Quigley,

We spent the last two nights in
Chester but came on to Shrewsbury
this morning. Both are "black +
white" towns - having houses as in
this picture. The latter is very
nice as it has a small castle and
a church with gorgeous 14th century
windows. The Severn encloses three
sides of the town but Chester has
a Roman wall on which to run
around on. It is good to be back in
old towns although I enjoyed the weeks
ramming in Scotland + Ireland. We've seen
some beautiful scenery. On to Ludlow
and the Wye valley. Do write if you can
by above date. We'll be at the festival unt. 1 then.

Silver Springs. Seminole Settlement. Florida

Shortly after Spain ceded Florida to the United States, (1821) an Indian Agency was established near what is now Ocala, designated in 1827 as Fort King, which was the center of Indian affairs until after the Seminole War. White people began settling here as early as 1830, and even in 1884 there was a large winter resort hotel at Silver Springs that attracted a capacity business in winter.

F55

The Thunderbird Indian Trading Post at Dania, Florida, recently purchased by Armand Denis and Leila Roosevelt Denis, famous explorers and producers of Wild Animal Pictures, is one of the highlights of Florida. To the Thunderbird the Denises have brought many wild animals captured and tamed in the course of their African and Asiatic explorations. Here you may play with a ferocious-looking but friendly Cheetah, and all sorts of tamed wild life will delight you. You will see a Seminole Village. The Indian Trading Post displays hand-made jewelry, rugs, blankets, etc.

Wilmington is situated at the junction of the Christina and Brandywine Rivers and is the County Seat of New Castle County, Delaware. In 1638 the first Swedish Expedition to the new world landed at the point on the Christina called "The Rocks." Here they established Fort Christina, it was taken from them by the Dutch in 1655, who were, in return superseded by the English in 1664. Under Wm. Penn as Governor it acquired the Quaker characteristics which to this day it has never lost.

PARQUE DE SAN JUAN,
NEAR SANTIAGO, CUBA

Erected through the efforts of Colonel Gonzales Valdes to commemorate one of the battles of the Spanish American War. The interior is adorned by statues of Cuban, American and Spanish soldiers who took part in this battle. There are beautiful gardens and fountains, and from here may be had a superb view of the San Juan Valley.

Visited this and many other places here today and will for long stay at 4:30 P.M. This is a grand new hotel and the weather here is better than elsewhere. Love to all always Ted

Christening Scene, The Lost Colony, Historical Drama, Roanoke Island, N. C.

9B-H344

Each year during the summer months Paul Green's magnificent symphonic drama attracts thousands of people each week. The play takes place at restored Fort Raleigh on Roanoke Island, N. C. at the same spot, where over 350 years ago the first settlers in the new world built their fort.

Not long after the arrival of the colony, Virginia Dare, the first English child born on American soil, was born. She was baptized at Fort Raleigh two days later, August 20, 1587. The latter event is pictured on this card.

156-D—A Spotted Fawn in the Northwoods

7B-H1287

Duluth - Wed.

A fawn is one of nature's most beautiful animals. It is perfectly formed from birth. Usually twin fawns are born to a doe, and they become mature in about two years. While the doe ranges for food, she hides her fawn in a secluded place, where its coat blends into the background, and its lack of scent protects it from predators.
